Mine operators and miners might reflect that a frozen consumer is poor pay and a poor investment.

Tell the truth. Don't tell the fuel committee you are out of coal when you have fuel in the cellar. A special investigator may find you out.

If the six votes to one in the league of nations amounts to so little why did Great Britain fight so hard for its incorporation.

Garret Kinney of Peoria, has been appointed finance chairman for Illinois Republicans, with headquarters at Chicago. A good selection.

Belgium suffered most in the recent war, but with the aid given and reparations exacted from Germany, can now make a better financial showing than any other

nation that took an intimate part in the war.

Jacksonville can boast of as efficient a number of willing workers in the present fuel crisis as any other municipality in the country. The city administration and committees are working together very effectively.

"We fought for you in France. Are you going to fight for us now?" is the appeal made to miners by convalescing soldiers in the hospital at Fort Sheridan to the Sangamon county mining company.

The present administration has definite information on file at Washington regarding all mines in the country during the last two years. If they now desire to prosecute both operators and miners they have the data on hand, but how can they explain the delay.

## SEDITION.

In the present Bolshevik crisis in this country and in the present state of unrest the United States department of justice found no existing law to meet the emergency and the attorney general requested legislation to meet the new condition. A bill, as drafted by this department, has been introduced by Representative Davey of Ohio, defining sedition and imposing a penalty. The measure is rather strenuous, perhaps, but would meet the emergency. It is as follows:

SEDITION.—Whoever, with the intent to levy war against the United States, or to cause the change, overthrow, or destruction of the Government or of any of the laws or authority thereof, or to cause the overthrow or destruction of all forms of law or organized government, or to oppose, prevent, hinder, or delay the execution of any law of the United States, or the free performance by the United States Government or any one of its officers, agents, or employees or its or his public duty, commits, or attempts or threatens to commit, any act of force against any per-

son or property, or any act of terrorism, hate, revenge, or injury against the person or property of any officer, agent, or employee of the United States, shall be deemed guilty of sedition, and, upon conviction thereof, shall be punished by a fine not exceeding \$10,000, or by imprisonment for a period not exceeding twenty years, or by both such fine and imprisonment, in the discretion of the court.

SECTION 2. Promoting Sedition.—Whoever makes, displays, writes, prints, or circulates, or knowingly aids or abets the making, displaying, writing, printing or circulating of any sign, word, speech, picture, design, argument, or teaching which advises, advocates, teaches, or justifies any act of sedition as hereinbefore defined, or organizes or assists, or joins in the organization of, or becomes or remains a member of, or affiliated with, any society or organization, whether the same be formally organized or not, which has for its object, in whole or in part, the advising, advocating, teaching, or justifying of any act of sedition as hereinbefore defined, shall be deemed guilty of promoting sedition, and, upon conviction thereof, shall be punished by a fine not exceeding \$10,000, or by imprisonment not exceeding ten years, or by both such fine and imprisonment, in the discretion of the court.

SECTION 3. Aliens to be Deported.—Any alien who shall be convicted under any of the provisions of this Act shall, at the expiration of his sentence, be taken into custody under the warrant of the Secretary of Labor and deported in the manner provided by the immigration laws of the United States then in force, and said alien shall forever thereafter be debarred from again entering the United States or any Territory or possession thereof.

SECTION 4. Denaturalization and Subsequent Deportation.—The conviction under any of the provisions of this Act of any naturalized citizen shall be deemed sufficient to authorize the cancellation of his or her certificate of naturalization in the manner provided by section 15 of the Naturalization Act of June 29, 1906. It shall be the duty of the United States attorney in the districts where said naturalized citizen is held in custody or resides to institute and conduct such proceedings immediately upon the entry of final judgment of conviction. Upon the cancellation of the certificate of naturalization the alien shall become subject to the provisions of section 3 of this Act.

SECTION 5. The Department of Justice shall furnish the Secretary of Labor such data as will enable him at the proper time to effect the deportation of those made subject thereto by the provisions of this Act.

Rippling Rhymes  
By Walt Mason

FUNDAMENTAL.  
I am not wise or very clever,  
but this seems patent to my eye:  
The good old virtues live forever;  
and other living issues die. We hear so much of Vital Issues, which keep us staring for a day, and then, like other fragile tissues, they shrivel and are blown away. The transient things are oft alluring, gold bricks in every age have shone; but Thrift is evermore enduring, and Industry still holds its own. Short cuts to wealth, short cuts to honor, short cuts to fame confront all men! but he who takes them is a goner, in fourteen cases out of ten.

That road is long and the man must travel who'd fairly win the nobler prize, and often he will damp the gravel with tears from worn and weary eyes. Still Perseverance is a treasure, as in the younger days of earth; and Honesty's the truest measure to gauge the mortal pilgrim's worth. And Loyalty and Truth are standing triumphant while the ages roll, the good old virtues, still commanding the homage of the healthy soul. He wastes his time who fools and bothers with fads and isms up to date; the good old virtues of our fathers are all he needs to make him great.

## THE OBSERVATORY

Mary Garden's gown of a thousand mirrors has nothing whatever on the third term serge suit.

We seem to have kept the home fires burning while the boys were overseas, and then as soon as they returned we turned the job over to them, especially in Kansas.

Volunteer wood choppers, who are said to be saving their home communities in some parts, are wearing the D. S. B.—Distressed Service Blisters.

The Kansas Executive's need for a big army of miners is so great that in utter disregard of war department rulings he is accepting men who have flat feet.

The output of a Chicago hair-pin factory is 18,000 a day, and, owing to the peculiar resiliency of the back seat of the Ford car, does not begin to meet the demand.

A Kansas overseas veteran reports that it was his observation that men dig better while under fire, and suggests that if the governor of that state would occasionally add artillery to his forces, lay down an occasional barrage on the works, the volunteers who find coal at a depth where union miners would never take the trouble to look for it.

"The individual who whooped it up for suffrage may be pardoned sometimes if he regards himself as several kinds of a dum fool, and especially when he observes fair woman taking her place in the busy marts of trade," explodes the Ottawa Herald on some provocation or other not stated. "Some of them require half an hour or more to get to work and an additional half hour to go home. After they have spent more time than a man requires to get down to work, a little more visiting, and paused to observe practically every visitor who comes into the office or place of business, what they accomplish toward the day's toil is several per cent less than the average man does. If they vote the way some of them work, the cause of democracy needs votes from other sources."

Bill White is Suspicious.  
W. A. White in the Emporia Gazette.  
Henry Allen, governor of Kansas, is about to get his. In about four days or less the Democratic administration at Washington will see in him a formidable candidate for the presidency on the Republican ticket, and then the Democratic administration will suddenly wake up. To get coal? Not at all, but to spike Henry Allen. Some sort of a tangle will be developed between the state government and the federal government, probably through the railroads, which will stop the distribution of coal in Kansas. The federal administration will have the last say, and Allen will be stopped. This will be a great Democratic victory.

Watch 'em spike him.

## CITIZENS GUARANTY FUND

Whereas, the City Council of the City of Jacksonville, Illinois, has appointed certain citizens of said city to be a Citizen's Fuel Conservation Committee; and

Whereas, said committee is about to borrow money from some bank or banker in the City of Jacksonville, to be used for the purpose of purchasing fuel to be again sold to the citizens of the city of Jacksonville; and

Whereas, in order to enable said committee to borrow money, it will be necessary to have the amount borrowed guaranteed by responsible persons;

Therefore, we, the undersigned, in consideration of the loan to be made to said committee, and the signatures of other parties to this guarantee, each for himself hereby guarantees to the bank that shall loan money to said committee the repayment of the sum or sums so loaned; it being distinctly understood and agreed that each of the undersigned shall be liable only for his proportion of any sum or sums that said committee may borrow and fail to re-pay, not, however, in excess of One Hundred Dollars to each of the signers hereof; and it is understood that the bank making such loan shall not and will not hold any individual guarantor signing this guarantee in a sum greater than the sum of one hundred dollars.

Danger Signs of Bad Blood

Avoid Suffering by Heeding These Warnings.

Pimples, scaly itching skin, rashes, burning sensations and scrofula denote with unfailing certainty a debilitated, weakened and impure state of the blood. The trouble may have been in your blood from birth but no matter how you were infected, you must treat it thru the blood. It is a blood disease. You must use S. S. S., the standard blood tonic for 50 years, if you expect certain relief. For purifying the system, nothing is equal to it. The action of S. S. S. is to cleanse the blood. It flows through the system direct to seat of the trouble—acting as an antidote to neutralize the blood corpuscles. Increases flow so that the blood can properly perform its physical work, dull sluggish feeling leaves the complexion clears up, long standing cases respond promptly. But you must take S. S. S. Drugs and substitutes will do. Get S. S. S. from your druggist. If yours is a special case, you need expert advice, write Medical Adviser, 444 Swift Laboratory, Atlanta, Ga.

## STATE RESTS CASE

(Continued from Page 1)

feared it might be found by revenue officers and would form another link in the chain of evidence against him. The witness told of making the trip to St. Louis with the state's attorney and Mr. Williamson, and said that the round trip was made in something like four hours and thirty-five minutes.

**Not Present at Time of Arrest.** When cross examined the witness stated that he was not present when the defendant was arrested charged with the murder

of his father, but saw him a short time later. He stated he did not know what the defendant had in his possession when arrested.

The witness again referred to the finding of the bullet in the mattress of the colored woman's bed, and told of finding a second bullet two or three days later, this one being found in the dead woman's pillow, after it had hung in a shed for a day or two. The witness stated that the bullet appeared to have passed thru the woman's head but he did not see the place from which it came. The witness stated that he did not know that the undertaker had found a wound in the dead woman's temple.

**Bullet Slightly Flattened**

The first bullet found, according to the testimony of the witness, was slightly flattened along one side as if it had struck some hard substance. It was his opinion that it had struck the bone in the dead woman's chin and thus became flattened. The attorneys for the defense sought to show that the bullet would not have become flattened in the way it was by this contact, unless it had merely grazed the bone and glanced off to one side. The witness stated that he could find no evidence as to what became of the bullet after it passed thru Mrs. Cisco's hand, and the same was true of the one which passed thru her forearm.

The testimony of the witness was to the effect that he did not make a search for bullets in the bed upon which Mr. Reddish's dead body was found. He said he knew that the mattress from this bed was burned about ten days later and a search made for a bullet in the debris, but that none was found. He stated that he could find no evidence of a bullet anywhere in Mr. Reddish's room. The witness testified to the fact that they go to his father's home and search for the latter's revolver. This search was made but the revolver was not found.

**No Blood Stains on Floor**

Attorneys for the prosecution asked the witness if he had not made an examination of the room occupied by Mr. Reddish, to see if there were blood stains upon the floor. The witness testified that he had made such an examination and that no blood stains were found, and that examination was made of the room occupied by Rachel Cisco, and that there was a blood stain on the floor south of the bed.

The defense at this point asked the witness if he had not looked for a blood stain on the floor of Stephen Reddish's room on the theory that Mr. Reddish was not killed in that room. The state objected and objection was sustained.

At 3:35 o'clock the state rested its case.

**Witnesses for the Defense**

Before court adjourned Friday afternoon ten witnesses had been produced by the defense, all of whom testified to having seen Stephen Reddish on Saturday, April 26, the day following the night upon which the state contends the murder was committed.

The first witness for the defense was Douglas Davis of Jerseyville, who said he was well acquainted with Stephen M. Reddish during his lifetime, and that the last time he saw him alive was on Saturday, April 26. The witness stated that he saw Mr. Reddish on that day at about 1:30 p. m. at the corner of Spruce and State streets; that Mr. Reddish was walking south on State street at that time and was about 15 feet from him when he first saw him.

W. W. Watts, a member of the Jerseyville police force, was next placed upon the stand. This witness testified that he saw Stephen Reddish between 3 and 4 o'clock on Saturday, April 26, the day the tank demonstration took place in Jerseyville, and that he had a conversation with him that day.

**Policeman Testifies**  
When cross examined the witness stated that he saw Mr. Reddish at the corner where witness was stationed as traffic officer. He said he was at that street intersection from 6 o'clock in the morning until 5 p. m.; did not see Mr. Reddish at any later hour that day.

F. O. Brown of Jerseyville was the next witness and he also testified to seeing Mr. Reddish on Saturday, April 26. Witness stated that he knew it was Saturday, because he had been to the river all week and did not return to Jerseyville until Friday evening; thought it was about 7 o'clock a. m. when he saw Mr. Reddish leave the Wagner store and cross the street. He stated that Mr. Reddish wore a dark corduroy coat on this occasion.

The witness stated that he did not see Mr. Reddish any more that day. He stated that he saw the tank that afternoon but could not say just where he stood on State street when the tank went along.

**Ten Year Old Girl on Stand**

Marian Patton, a ten year old girl, took the stand following Mr. Brown. The witness stated that she remembered the day the tank visited Jerseyville and that it was Saturday, and that she also remembered seeing Mr. Reddish that morning as she was on her way to the grocery store. The child told of passing Mr. Reddish on the street that morning and stated that just as she passed him a man asked him who he was and Mr. Reddish gave him his name.

When cross examined the witness stated that she did not remember what she went to the store to purchase that morning, but she did remember that she had the groceries charged. The witness was questioned closely as to just where she met Mr. Reddish on the morning in question, and answered the questions put to her in a fairly accurate manner.

**Conversed With Mr. Reddish**

Charles Mourning, a resident of Jersey county, was then asked to tell the last time he had seen Stephen Reddish alive. The witness said he saw Mr. Reddish between 2 and 3 o'clock the afternoon of April 26 and had a brief conversation with him.

Arthur Park, who lives at Fieldon, one mile west of Jerseyville, also told the jury that he

saw Stephen Reddish on the streets of Jerseyville on Saturday, April 26. The witness said he had not been to Jerseyville for two or three weeks prior to that visit. He said he saw Mr. Reddish at about noon of that day. Witness said that Mr. Reddish saluted him but was not allowed to give the exact words spoken.

Upon cross examination the witness said he did not remember seeing anyone else he knew on the streets of Jerseyville that day, that he had met persons he knew but had forgotten who they were.

**Was Talking to Three Men**  
John W. Duggan, who stated he lived four miles northeast of Jerseyville, was the next witness. He stated that he saw Mr. Reddish on Saturday, April 26, between 4 and 5 o'clock p. m. He said Mr. Reddish was talking to three men whom the witness did not recognize.

Oscar J. Jaynes, a resident of Jerseyville, testified that he saw Stephen Reddish on Saturday, April 26, near the tank which was on exhibition there that day.

Pat Powers, the last witness examined at the afternoon session, stated that he was a retired farmer and had lived in Jerseyville for five or six years. He stated that he saw Stephen Reddish on the day in question, at about 3 o'clock p. m. The witness testified that he was in conversation with Pat Burns when Mr. Reddish passed them. Questioned as to the clothes Mr. Reddish wore, witness stated that according to his recollection he wore a light gray suit. Witness was asked if he had any conversation with any one that day as Mr. Reddish passed by, but he was not allowed to reply to this question.

The afternoon session was adjourned at 5:20 o'clock, until 7:30 p. m.

**Night Session.**

At the night session LeRoy Harris, Lester Geisler and Teresa Flam were witnesses brought forward in the effort to prove that the murder of Stephen Reddish probably occurred on the night of Saturday, April 26. These witnesses testified that as they returned to Jerseyville after attending a dance in the country about midnight they heard shots which seemed to come from the direction of the Reddish home.

Miss Dorothy Nelson, operator in the telephone exchange in Jerseyville testified that about 12:10 noon on April 30 Mrs. Clarence Reddish put in a call for her brother-in-law, Dr. Horace Reddish, at Alton. States Attorney Hamilton in cross examination asked the witness if she knew when the conversation occurred and the reply was that she did not, that the hour mentioned referred to the time that the call was put in.

Miss Reynolds, stenographer who took testimony at the time of the preliminary hearing, next took the stand but Mr. Chapman for the state objected to use of a transcript of testimony by the witness to refresh her memory. Judge Smith sustained the ob-

## BIGGEST PEOPLE TO FIGHT CATARRH WITH SIMPLE HOME MADE REMEDY

Can Make Pint at Home and Costs Little, Says Leading Druggist of Covington, Ky., Who Has Made Special Study of Catarrh.

**Says: Inflamed Nostrils Invite Influenza**

People who say that catarrh is disease not to be taken seriously are harshly rebuked by a Kentucky druggist who has for years been much interested in the growth of this loathsome, yet altogether too common disease.

He claims that the sore, tender, flamed membrane of the nostrils and throat is a prolific breeding ground for germs—not only the germs of Influenza, but any other kinds as well.

If people would only stop experimenting for two weeks and try a simple remedy made of mentholized Arceine mixed with enough boiled water to make a pint, half of the catarrh in the country would be abolished. It's really no joke for people

who don't know about this simple recipe to be constantly sniffing and snuffing, blowing and hawking, when all these obnoxious symptoms as well as the foul discharge can be made to disappear in a few days.

Ask for three-quarters of an ounce of Mentholized Arceine—that's all you need and after you have mixed it with enough boiled water to make a pint, gargle the throat twice daily and snuff or spray some up the nostrils, as directed.

The tender nostrils will soon lose their soreness, heal up, and be clean and healthy.

### R. E. WARDHAUGH IS DEAD IN ARKANSAS

Former Resident Meets Death in Accident at Dardanelle Arkansas—No Particulars Given.

F. J. Muehlhausen, Worshipful Master of Jacksonville Lodge No. 570 A. F. and A. M. received a telegram Thursday, telling of the death of R. E. Wardhaugh at Dardanelle, Ark. The message stated that death was due to an accident, but no particulars were given.

R. E. Wardhaugh was for a number of years a resident of this city and was employed as miller at the old City Mills on North West street. He left here a number of years ago and was located for a time in Covington, Tenn. It was not known that he had left that city.

Deceased was about 65 years of age. His daughter, Miss Edna Wardhaugh is a resident of this city and is a teacher in the public schools. He was a member of Jacksonville Lodge 570 A. F. and A. M.

The message to Mr. Muehlhausen asked about the disposal of the body. Mr. Muehlhausen immediately communicated with the daughter who indicated that the body probably would be taken to Springfield for burial.

LETTER FROM MR. MINTER. John Minter favors the Journal with news from Colorado.

Lamar, Colorado, Dec. 1, 1919. Editor Journal:

As I am again on one of my trips to the west I will redeem my promise to you and to the members of Matt Starr post and others to tell them of some of my observations along the way. I didn't see much of interest along the C. & A. except rock and rock quarries and some great apple orchards in both Pike county, Ill., and Pike county, Mo. I saw several fine brick establishments and paying brick factories. Coal was very scarce all along the line. I only saw 7 car loads on the line from Pleasant Hill to Mexico, Mo. We crossed the Missouri river at Glasgow and there was a freight wreck of about a dozen cars which hindered us much; weather dark and gloomy with rain and sleet to Kansas City. More snow all westward but not cold. At Garden City, Kansas our train was stopped by a wreck. Two trains tried to pass on the same track and a fearful wreck ensued. Cars piled up and locomotive across the track and we had to get by with a new track laid around the wreck and we didn't get to Lamar till 2 p. m. Sunday. The longest time I have ever been making the trip. When the track was clear many loaded passenger trains both east and west passed. I counted more than hundred cars of coal between Kansas City and Lamar all going east, all Canon City coal. At Lamar, 120 miles from the mine coal is retailing at \$10 a ton. Snow is two inches deep and a fresh north wind is blowing.

From appearances this country is prospering, merchants are busy but prices are high and general unrest prevails.

### WINCHESTER

Winchester, Dec. 5.—Leonard Bridges, night operator at the Burlington station here, is visiting relatives at West Frankfort this week.

Mrs. Mary Stuart who underwent an operation in Jacksonville several days ago was able to return home Friday and is improving in health.

Mrs. F. E. Berry left Friday for Hastings, Iowa, to visit her daughter, Mrs. Fred Martin and family.

Irwin Coultas, who has been confined to his home the past few weeks on account of illness, is improving.

Dr. and Mrs. J. W. Dace have been visiting in St. Louis this week. Dr. Dace has been attending clinical lectures there.

William Coultas returned Friday from Concord where she has been visiting her daughter, Mrs. Ray Smith and husband.

Herman Smith has been kept from the Southwell store the past few days by illness.

A box supper and entertainment will be held at Maple Grove school next Friday evening.

### THE PARK BOARD

Some time indicated a willingness to cooperate with the Jacksonville Park Board in the care and improvement of the small grove south of the passenger station. Yesterday morning a majority of the board visited the place and designated a number of trees which by all means should be removed and a man was on hand ready to do the work and burn the brush for the wood. The matter was at once reported to headquarters and a favorable answer is hoped for soon. The trees are all unfortunately soft maples which should not set out at all for shade and eventually all of them should be removed and replaced with hard maples or elms.

The board also ordered a letter of sympathy sent Mrs. Kooyers, Holland, Michigan, regarding the death of her husband.

W. G. Levy of St. Louis was a business caller in the city yesterday.

### NOTICE OF FINAL SETTLEMENT

In the matter of the estate of Matthew Pio Ferreira, deceased.

Notice is hereby given, that the undersigned, administrator of the estate of Matthew Pio Ferreira, deceased, has caused his final report and account as such administrator to be placed on file in the office of the Clerk of the County Court of Morgan County, and that he shall apply to said Court on Monday, the 22nd day of Dec. A. D. 1919, at 9 o'clock a. m. of that day, or as soon thereafter as he can be heard, for an order of approval of said report and account, and for his final discharge, at which time and place all persons interested can appear and show cause, if any they have, why such order and discharge should not be granted.

E. M. VASCONCELOS, Administrator.

### INCREASED RECEIPTS HAVE BEARISH EFFECT

CHICAGO, Dec. 5.—Increased receipts of corn had a bearish effect today on the corn market. Prices closed unsettled, one and one-eighth to 1 1/2 c net lower with January \$1.34 1/2 to \$1.34 3/4 and May \$1.32 1/2 to \$1.32 3/4; oats lost 1/2 c to 3/4 c. In provisions the outcome ranged from 10c decline to a like advance.

Corn traders acted on the assumption that enlarged arrivals of corn here had been brought about by utilizing railway equipment made available thru current heavy reduction of general freight business, and that for the present the influence of the coal strike was more bearish than bullish as to corn. Transient rallies which followed were associated with productions of rain and snow and with gossip that Scandinavian countries and Italy had bought 1,000,000 bushels of rye in the United States.

Oats weakened with corn. Nothing of any seaboard demand was heard and domestic call was very slow.

Provisions reflected the fall of grain and hogs, but recovered when offerings were absorbed.

TELLS OF PRINCIPLES OF PILGRIM FATHERS

Dr. Frank Hampton Fox Heard in Strong Address at Congregational Church—Said Pilgrim Fathers Believed in Law and Order—Need Such Principles Today to Preserve Our Institutions.

The brotherhood of the Congregational church had a fine meeting last evening. An excellent supper was served by L. S. Doane, Prof. Scott, Vinton Wood and Mr. Coley.

After the dishes had been removed from the table the gathering listened to a masterly address by Dr. Frank Hampton Fox, pastor of the First Congregational church of Decatur, his theme being the four cardinal points for which the Pilgrim fathers strove. The effort was very fine and deserved a far more extended report than is possible. He said in part:

Our thoughts revert to a scene 300 years ago in the cabin of the Mayflower when candles supplied the light; when on one side hung a sword and near it a keg of powder. The table was bare, but about it sat determined men. Their aim and objects were noble and John Carver called on Edward Winslow to read their statement of principles. It began "For the Glory of God." It was a document which set forth their principles to which all would agree and by which all would abide.

After it was read, John Carver asked if any one had any objections, whereupon one man said he had but it was of no use to offer them, and he would sign the document along with the rest, but they wouldn't dare do so if they were on the other side of the water under the rule of the king. Some one suggested that man would make trouble some day if he could. He was the forerunner of the aliens so troublesome today.

When it was decided to erect a monument to the Pilgrim fathers they put up the highest granite monument in the world, a statue of Faith and at the base were four figures indicative of the principles of the Pilgrim fathers. Believed in Law.

First was Law. The men who settled New England believed in law and yet, sad to relate, almost within sight of this grand statue the present police of Boston would turn the city over to pillage and destruction. The good citizen respects law. I am not here to talk politics nor do I know the political faith of any one here but I will say that had Theodore Roosevelt been alive and in authority, such things would not have taken place (applause).

The people stood by Governor Coolidge and Mayor Hansen of Seattle for they believe in such men. I was in Constantinople, the guest of Mr. Rockhill, and one of the best posted men on foreign affairs, and he told me the people of Turkey and the Balkan states were not ready for self government and needed a strong arm to hold them in check.

Home, Nation's Bulwark. The next figure was Morality. We live in perilous times. The Russian Bolshevik would nationalize women—forgetting that the bulwark of every nation is a pure, upright, home. See the lands where the harem is found and you see none of the nobler traits of humanity for great men are not born there. The I. W. W. has no regard for law and right. In carrying on his work he would flood the mine, put gasoline in the baker's oven and even in bear-

PHI ALPHA OBSERVED 75TH ANNIVERSARY

College Society Held an Interesting Meeting Friday Evening—Early History of Society Reviewed.

Seventy-five years ago seven young men, William Jayne, Van Eaton, Ross, Wright, Henry, Baldwin and Wilkinson, students of Illinois College, decided they wanted a literary society which would embody the principles dear to them. They were rather low wires, ready for whatever might be going on but good students and men who have since made a grand mark in the world. They gathered in Henry's room and proceeded to organize a society and decided to call themselves Philo Aletheias, Lovers of Truth, the first words of Greek and the initial letters Phi Alpha, of which people in this vicinity have heard occasionally if not more frequently.

Their beginning was humble and they encountered unnumbered hardships and privations. They were scoffed at and regarded as interlopers among the staid and dignified good boys of the institution. They were regarded as uncultured and uncouth and were often held up to ridicule but all those little things only served to bind them closer together and make them work all the harder.

As years passed by they began to be heard from in many ways. Valedictories began to come their way; joint debates were won by them and they made themselves felt in several directions. All the time that sturdy spirit of independence, good fellowship, devotion to duty and strict integrity showed results. Their influence is felt in foreign mission fields, in halls of congress and legislatures, in governors' chairs, in the pulpit, business and all walks of life and their honor roll is a long one. They gallantly served their country during the civil war and the list of their numbers who wore the khaki is a long one.

It is to be distinctly understood that while this little account is prepared by one who enrolled his name on Phi Alpha's records more than half a century ago every word is written from a strictly impartial standpoint and a wholly unprejudiced position. Today the society holds a truly enviable position. Its numbers are all that could be asked; the quality of its membership is simply unsurpassed and its standing is most worthy. The hall which has resounded to the voices of so many of the veterans of the society has been wholly overhauled and renovated, refitted and has had an addition of a community or club room where the members may meet socially and discuss the questions of the day.

The program last evening was largely devoted to the history and early days of the society. Henry S. Stevenson, who joined in 1862 is the oldest resident member and after him comes S. W. Nichols who occasionally goes up and tells the boys not to be partial but to imitate him. F. E. Drury was there and is one who has a fine degree of success. After the opening exercises S. W. Nichols spoke, exhibiting a priceless treasure, the pocket Bible given the first president, William Jayne, by his mother, who wrote on it fly leaf: "William Jayne, from your mother."

"Read it with care treasuring up its truths and may you become wise unto salvation is my prayer." "Springfield, Oct. 8th, 1850." This was presented to the society by a son of Dr. Jayne after the death of the latter.

Another highly interesting feature of the evening was the reading of extracts from the records when S. W. Nichols was secretary for several years away back in the 40's and later. The story of the 25th and 50th anniversaries was heard with interest as were many other accounts of time long ago.

The Program. The following program of talks was carried out during the evening:

"Associations With the Founders"—S. W. Nichols. Talk—Henry Stevenson, oldest member of society in Jacksonville. Frank Drury read extracts from Mr. Paxton's account of the founding of the society.

Henry Best read several minutes of society meetings dating as far back as 1853. "The Founding and History of Phi Alpha"—Jasper Underwamp. Talk—Dr. C. H. Rammelkamp.

Rex Ranson, two heifers at \$25.50 and \$25.

H. H. Massey, reifer at \$28.50; calf \$12.50.

A. N. Vaughn, two cows \$53 and \$48.

ROUTT HIGH WON FROM FRANKLIN HIGH

Defeated Visitors by Score of 34 to 19—Route Came from Behind and Won in Second Half—Carson's Work Featured

Route High after being on the short end of the score at the end of the first half came from behind in the final half and defeated Franklin high by a score of 34 to 19. It was the second defeat suffered by Franklin this season.

The game was the opening of the Route local season and there was a large crowd of spectators present that overflowed the seats and out on the playing floor. Franklin brought a large crowd of rooters and there was much enthusiasm displayed by the adherents of the teams.

The players were over anxious especially the Routt men and in the first half Seymour threw six free throws because of fouls. This with two field baskets put the visitors in the lead at the end of the half by a score 10 to 9.

Woulfe of Routt left the game in the second half thru making four personal fouls and Mandeville took his place.

In the second half Franklin left Carson uncovered and he negotiated seven field baskets while Costello added three and Zell and Mandeville one each. Franklin was kept from the basket entirely with the exception of one field basket by Seymour who again threw six free throws.

For Routt the work of Carson, Costello, Guinn and Woulfe featured, while Seymour was the bright particular star for Franklin. The line-up:

CITIZENS ORGANIZE TO FIGHT FUEL FAMINE

(Continued from Page 1)

terpretation of rules were referred to the committee.

More than 100 men signed the guarantee fund and a great many others are expected to sign today. As Mayor Crabtree suggested, there is much more involved than the mere money in signing this subscription fund, for the placing there of a signature indicates interest and support. The guarantee list will be used by the fuel committee as collateral security in borrowing any necessary funds. It is believed that the business can be handled with little or no loss.

**Advisory Committee Session.**

A meeting of the advisory committee was held later in the afternoon at the Journal office. The session beginning at 5 o'clock and continuing until 7. The committee organized by the election of H. M. Capps, chairman and H. A. Perrin, secretary. The order of the state utilities commission was carefully considered and each optional ruling discussed. A summarized statement of the committee's recommendation for conservation rules in Jacksonville appears above. The committee will be in session from day to day and will change the rules as the needs justify.

The committee desires to interfere as little as possible with business and further wishes the rules and regulations to accord with justice and consideration. Just at present there seems to be no scarcity of wood and for that reason the committee stipulated that certain institutions might continue if wood is used for fuel instead of coal.

Another session of the committee is scheduled for today.

UTILITY COMMISSION RULES

The orders of the state utility commission as sent to all utility companies and as received by Supt. Gray of the Jacksonville Railway & Light Co., were printed in the Journal yesterday. The rules are summarized in those approved by the local advisory fuel committee appointed yesterday.

The purpose of the commission is to materially cut down the amount of coal required by utility companies and also thru this reduction in service to conserve the fuel supplies of utility companies' patrons.

COUNCIL ACCEPTS BID FOR CITY BONDS

Bid of Bolger, Mosser and Williman With Premium of \$1,506.50 Accepted—Will Issue \$78,000 Worth Immediately.

At a special meeting of the city council held Friday evening the bid of Bolger, Mosser and Williman of Chicago was accepted for the city bonds recently voted to be issued. The bid of the company was par with accrued interest and a premium of \$1,506.50.

Six bids were presented and all were at par with accrued interest and premium. The bid of Bolger, Mosser and Williman carried a premium of \$1,506.50. The bids of the various companies with the premium offered follow:

Bolger, Mosser & Williman . . . . .	\$1,506.50
First Trust & Savings Bank . . . . .	130.00
E. H. Rollin & Son . . . . .	\$38.40
John Nuveen & Co. . . . .	105.00
W. R. Compton & Co. . . . .	332.00
Harris Trust & Savings Bank . . . . .	760.00

Who City Clerk Pratt called the roll it showed all members present. After the bids had been opened and ready by the clerk, Alderman Moore offered a motion which was seconded by Alderman Ehnie that the bids be referred to the finance committee and city attorney for consideration. The motion carried.

Alderman Cain seconded by Alderman Williamson moved that the council take a recess to give the committee an opportunity to go over the bids. This motion carried.

The finance committee without leaving the council chamber held a brief consultation with City Attorney Bellatti, Alderman Graff, chairman of the finance committee said the committee was ready to report. The council then reconvened.

Alderman Graff offered a motion which was seconded by Alderman Flynn that the bid of Bolger, Mosser & Williman be accepted. On roll call the motion carried by a unanimous vote.

Mayor Crabtree then called upon several representatives of bond houses who were present for remarks. All of the men spoke in highly commendatory terms of the appearance of Jacksonville and its hustling merchants. They especially commended the council and Mayor Crabtree for the manner in which the business was conducted.

The mayor told the visitors that the city council was unique in that all of the members were serving for nothing. He also introduced Dr. Baker, Edward Longergan and Mrs. W. P. Dunan, members of the Citizen's committee who had assisted the city council in the promotion of the bond issue. Mr. Bellatti was introduced as one of the leading attorneys of the city, but who had volunteered his service gratis. C. A. Johnson of the Elliott State Bank and Trust Company who presented the bid for the Harris Trust and Savings Bank, spoke briefly.

A motion was then offered and carried that the first installment of the bond from 1 to 84 inclusive in the sum of \$78,000 be delivered to the purchaser immediately.

The clerk also was instructed to return all of the certified checks except that of the successful bidder. There being no further business, the council on motion adjourned.

MARRIED AT SADORUS

Mr. and Mrs. Vincent Richardson, Jr. of Champaign county are guests at the home of Mr. and Mrs. Vincent Riley, just west of the city. Their marriage was solemnized last Wednesday at the home of the bride's parents, in Sadorus in Champaign county. Mrs. Richardson before her marriage was Miss Edna Rice and she belongs to family well known and highly respected in her home community.

Mr. Richardson is a grandson of the late Vincent Richardson and he has a great many relatives here in this county where the Richardson name is so highly regarded. Their wedding was an important social event in the neighborhood and the young people are soon to establish a farm home in the county where the parents live under very happy auspices.

WILL LEAVE FOR THE SOUTH

Mr. and Mrs. Arthur Masters, daughters Misses Florence Leonard and Eleanor, expect to start tomorrow for Miami, Fla. to spend the winter. The family is going south particularly for the benefit of Mrs. Masters' health. However the trip at this time solves the puzzling question of fuel. Mr. Masters for a number of days has been heating only two rooms of his house as his supply of fuel was very low.

STREET CAR SERVICE CURTAILED

Street car service was curtailed yesterday by Superintendent Gray in an effort to save electricity and conform with the wishes of the state utilities commission. Cars run every half hour instead of every fifteen minutes as heretofore and are not heated. The car lighting has also been reduced one-half.

PROBATE COURT

In the estate of Fred C. Yordling, inventory was approved. In the estate of Mary Hanners, petition to omit appraisement was allowed. In the estate of U. G. Woodman, the appraisement bill was approved.

Social Events

**Sigma Phi Epsilon Entertain Freshmen.**

Sigma Phi Epsilon of Illinois College entertained ten freshmen girls yesterday at a four course dinner party at the home of Mrs. T. P. Carter. A dance followed after the supper.

**Musical Given at Pisgah Church.**

A musical was given by the Spillman Trio of this city at Pisgah church Friday evening. A program of instrumental and vocal selections was carried out and enjoyed by a large audience.

**Westminster Guild Met With Mrs. Obermeyer.**

The Westminster Guild of the Westminster Presbyterian church met at the home of Mrs. H. P. Obermeyer yesterday afternoon.

An invitation was given by the Guild to the Missionary Society to meet with them at Mrs. Obermeyer's home and the invitation was accepted.

Dr. Humphrey of the Presbyterian church of Springfield gave an address on the "Americanization of Foreigners."

Refreshments were served and a social hour was enjoyed by all.

Husbands of Club Members Entertain.

The husbands of the members of the Priscilla Club most pleasantly entertained their wives at the Peacock Inn Friday evening at a dinner and an entertainment which followed. The dinner was an elaborate turkey feast, faultlessly served, and was one of the features of the evening. The entertainment which followed included games, dancing and music. The publication of the Priscilla Gazette, a club paper, afforded much amusement. Among those present were: Mr. and Mrs. Walter Schrag, Mr. and Mrs. Charles Harney, Mr. and Mrs. Harry Strawn, Mr. and Mrs. R. C. Singley, Mr. and Mrs. Claude Vail, Dr. and Mrs. Charles Hopper, Mr. and Mrs. S. F. Foley, Mr. and Mrs. Ralph Hutchinson, Mr. and Mrs. Leo Johnson, and Mr. and Mrs. Jeff Cleary.

I. W. C. STUDENTS CONSERVE FUEL

Societies at Woman's College Vote to Discontinue all Meetings Until After the Holiday.

At a meeting of the Student Council of Illinois Woman's College held Friday afternoon it was voted to discontinue all social meetings until after the Christmas holidays.

The students realizing the serious shortage of fuel thought proper to discontinue meetings which will mean a great saving in fuel at the college. They are to be commended for this patriotic spirit and their action may enable the institution to tide over the present crisis without closing.

The gymnasium is already shivering from the heating plant which effects considerable saving in fuel. The societies which took the action indicated are Belles Lettres, Phi Nu, Theta Sigma and Lambda Alpha.
